

Juandi Syafrin

info@juandisay.org

Full Stack Developer and Mid-level DevOps

Repo: [juandisay.org/git](https://github.com/juandisay) – papamana.com

Hi, I am juan, I'm active as an open source on github and a full stack developer (primarily work as a backend with python and NodeJs) and mid-level devOps.

But I'm fallin in love with modern FrontEnd like vue, Angular, and cross platform desktop with Electron javascript.

My current works as a full time freelance Remote in a company around the World via LinkedIn, Upwork, etc engaged in data scraping, data crawling, microservice, serverless with Openfaas and vercel, ecommerce, and ERP.

Being a professional programmer, I like clean code, simple, with documentation. Being part of a team is a **Motivation Booster**.

For further information, you can see my description about level language, skills, and recent employment in below.
